

FLOOR PLANNER - EP 250E

For Removal of Hard Coating & Excess Concrete
(Electrical ⚡ - 3 Phase)

DESCRIPTION

The floor Planer (EP 250E) is designed for light to heavy duty applications.

- Removal of Hard Coatings
- Leveling and Removing Layers of Hard Material
- Removing of Excess Concrete and Deposits from Surface

- Increased Weight and Power Give Exceptional Performance For Machine in this Segment
- Accurate depth control for very accurate performance.
- 2 large rear wheels for easy transportation.
- Fitted with vacuum adaptor for dust removal (dust extractor required).
- Engineered from 8mm welded steel for ultimate strength and reliability.
- Heavy duty 10Hp 3P motor.

VACCUM SHROUD

DEPTH ADJUSTMENT

TCT CUTTER EP250 T.01

SPECIFICATION

Model	Engine Power (Hp/kW)	Voltage (V)	Cutter Speed (rpm)	Cutter Speed (rpm)	Working Width (mm)	Max Depth of Cut (mm)	Working Distance from wall (mm)	Dimensions (L x W x H) (mm)	Weight (kg)
EP 250E	10-7.5	400/3P	1500	1500	250	3 - 6	75	1120 x 440 x 1160	195
